

## ACUTE ISCHEMIC STROKE TOOLKIT

**THE SOONER  
YOU IMPLEMENT  
OUR UPDATED  
GUIDELINES,  
THE BETTER  
FOR AIS PATIENT  
OUTCOMES**

**Together  
to End Stroke®**

Nationally sponsored by  
**Medtronic**

Medtronic is a proud supporter of the Together to End Stroke® Initiative and the Acute Ischemic Stroke Toolkit.

©2017 American Heart Association

The AIS treatment guidelines recommend the use of stent retrievers (after Alteplase IV r-tPA) for removing large vessel occlusions in eligible patients. It's a change that marks a new standard of care — and a new opportunity to improve outcomes. ***If you haven't already implemented the updates, now is the time.***

## THE TOOLKIT INCLUDES:

- ***AIS Guidelines Quick Sheet***
- ***Severity-Based Stroke Triage Algorithm for EMS***
- ***Stroke Simulation Event Toolkit***
- ***Stroke Screening and Severity Tools for LVO***
- ***Healthcare Professional Guide***
- ***Patient Resources***
- ***And More***
